## SKILLS

- Tools & Technologies: Python, R, ML-DL-AI, Predictive Analytics, Data Analysis, DAX, Data Modelling, Data Mining, Statistics, Visualizations, Hadoop, Hive, AWS.
- Algorithms: Regression, Decision tree, Random Forest, K-Means, ARIMA, Holt's Winters, SARIMAX.
- Soft Skills: Problem-Solving, Team Management, Story Telling.

## CERTIFICATIONS

- Machine Learning A-Z™: Hands-On Python & R In Data Science.
- Python All in One Mastery
- Data Analysis Using Python

## Hobbies & Activities

- Reading tech articles.
- Active problem-solving in the Leetcode platform.
- Cricket, Volleyball, Table Tennis & Indoor Games.

## WORK EXPERIENCE

### Value Chain Solutions (India) Pvt. Ltd.

Feb 23 - Present

Sr. Data Scientist

- Developing prediction systems and machine learning algorithms
- Presenting results in a clear manner
- Propose solutions and strategies to tackle business challenges
- Collaborate with Business and IT teams

### Deets Digital Pvt Ltd

JUNE 22 – Jan 23

Data Scientist

- Develop an Instagram Scraping script to fetch all information about Public & Private accounts using selenium python.
- Develop and design a theme for the PowerBI dashboard for Diagnostic clients.
- Data analysis of BFSI, and FMCG datasets.
- Develop ML model for Underwriting - Finance.

### Shivohm Softech Pvt Ltd

JUNE 21 – May 22

Data Scientist

#### Model Development – Supply Chain Domain:

- Undertake the data preprocessing of structured data.
- Analyze data information to discover trends and patterns.
- Develop and deploy a time series forecasting model to predict supply and demand for large manufacturing companies which helps them in better production planning.
- Develop Data extraction tools using Python and deploy the data in client software.

### Simform Solutions

JAN 21 – APR 21

Senior Software Engineer

- ETL process in SQL server.
- Build, customize and publish interactive reports, visualizations and dashboards using Tableau

### Garuda Advertising Pvt Ltd

JUL 17 – JAN 21

Data Scientist

#### Social Media Analytics – E-Commerce Domain:

- Have good knowledge of social media marketing and campaigns run on it.
- Have knowledge of how to set up an effective Ads campaign on social media.
- Responsible for analyzing data sets to develop and deploy ML models to drive innovative business solutions.
- Performed feature selection and feature extraction methods to figure out significant variables.
- Built a lot of sensible and pleasant reports using Tableau and have drawn insights using SPSS which gives businesses a better understanding of high-level statistics hidden behind their data and some key intervals which could also lead to positive growth.
- Web Crawling(using python) on many sites to get raw data out of it followed by data engineering to get business-required details out of the retrieved data and store it in MySQL

## EDUCATION

### Amiraj College of Engineering & Technology

B.E. in Computer Science

(Completion Year: 2017)
